

Quality Service. Major Results.

Testimonial

The Cleaning Command has recently made a shift in the multi-purpose cleaner that we regularly use. We have switched over to using OENano's Bacoban. Bacoban's Nano technology is unmatched anywhere in the cleaning industry. The use of Bacoban has allowed us to provide our clients with better higher quality cleaning. It has drastically reduced the amount of time needed to clean. Bacoban especially stands out when cleaning washrooms. On top of being a great multi-purpose cleaner it has the added benefit of constantly sanitizing. If you are looking for product to transform the way you clean look no further than Bacoban.
